

Half-term is Half the Price with Insurewithease
www.insurewithease.com

insurewithease.com is offering savings of up to £72 on travel insurance this Autumn. Families planning to get away will save up to £33 on a week's travel insurance and as much as £72 if they buy a worldwide annual policy (see table below).

“Cutting corners on travel insurance is tempting when money's tight” confirmed Paul Byrne, CEO, insurewithease. “But the value of cover can't be underestimated when the worst happens – whether it's an accident, illness, lost luggage or falling foul of delays or cancellations. It's not just the financial cost which could be thousands of pounds if it involves repatriation, it's the expert support offered by insurers when it's needed most that needs to be considered.”

“With the good deals available on the internet there's really no excuse to travel without cover”, continued Paul Byrne. “We certainly advocate shopping around and as our own research has shown, compared with other similar insurers, insurewithease customers can be assured of highly competitive rates this Autumn.”
